

SHE KOK HAU

SOFTWARE ENGINEER

Shah Alam, Malaysia • 0122172333 • kokhau000904@gmail.com • [Portfolio](#)

PROFESSIONAL SUMMARY

Passionate, adaptable, and results-driven Software Engineer specializing in frontend development. Proven track record in translating complex client requirements into clean, structured, and maintainable code using React and Vue. Adept at collaborating across cross-functional teams within agile environments to build user-friendly digital products that elevate user experience.

TECHNICAL SKILLS

- Web & Frontend Development:** React, Vue, HTML5, CSS3, JavaScript, TypeScript
- Software Development Tools:** Git, Version Control
- Project Methodologies:** Agile, Scrum, Project Management, Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

Software Engineer

Netizen Testing Sdn Bhd – Shah Alam, Malaysia | *December 2022 – March 2025*

- Cross-Functional Collaboration:** Partner closely with client-side project owners, project managers, and internal product teams to align on strategic objectives and seamlessly deliver technical solutions.
- Code Quality & Architecture:** Translate complex business requirements into well-structured, modular, and highly maintainable frontend code, ensuring optimal performance and alignment with client needs.
- Engineering Standards:** Strictly adhere to modern coding standards and actively participate in rigorous code reviews, fostering a collaborative, quality-driven, and continuous-improvement development culture.

Software Engineer Intern

Netizen Testing Sdn Bhd – Shah Alam, Malaysia | *September 2022 – November 2022*

- Full-Stack Upskilling:** Completed an intensive, immersive web development module, mastering core technologies including HTML, CSS, JavaScript, TypeScript, and React.
- Application Development:** Designed, architected, and deployed a fully functional single-player Battleship game leveraging React to demonstrate mastery of state management and UI component design.
- Knowledge Sharing:** Actively participated in technical team meetings and structured training sessions to enhance peer-to-peer knowledge exchange.

EDUCATION

Bachelor of Computer Science (Major: Software Engineering)

University of Wollongong (INTI International College Subang) – Subang Jaya, Malaysia | *Graduation: July 2022*

- Focus Areas:** Software Engineering, Digital System Security
- Honors:** Awarded *Best Project on Display* (June 2022) for final year project presentation.

Diploma in Information Technology

INTI International College Subang – Subang Jaya, Malaysia | *Graduation: August 2020*
